## RUPPINER PELLET

The universal pellet for versatile demands

Ruppiner Pellet is a universal, oat-free compound feed for all requirements. Due to the pelleting process, it has a longer shelf life and, above all, good starch digestion. This is particularly advantageous for performance-demanding horses that need more concentrated feed. It is also suitable as a supplement when feeding hay and oats. Due to the pellet form, the horse cannot sort out individual components and an even intake of all ingredients is ensured. A moderate energy level and a moderate protein content give the horse strength and the consequences of an excessive protein intake are avoided. Due to the good digestibility and high palatability, Ruppiner pellets are suitable for horses of all breeds and use directions.

**Feeding recommendation:** Depending on the stress, 500 g - 1 kg per 100 kg body weight and day. The feeding recommendation refers to a roughage intake (hay) of 1.5 kg per 100 kg body weight and day.

**Composition:** barley, wheat bran, oat hull bran, alfalfa meal, molasses, sugar beet molasses, calcium carbonate, sodium chloride

**Analytical ingredients and contents:** 10.5% crude protein, 2.5% crude fat, 12.5% crude fibre, 7.2% crude ash, 1.0% calcium, 0.5% phosphorus, 0.3% sodium, 0.2% magnesium

**Additives (per kg):** Vitamin A: 14,000 I.U., Vitamin D3: 1,200 I.U., Vitamin E: 90 mg, Copper: 9 mg, Zinc: 37 mg, Manganese: 28 mg, Iodine: 0.30 mg, Selenium: 0.14 mg

**Packing:** 20 kg bag, Big Bag
