RUPPNER MÜSLI

The all-rounder for versatile requirements

Our Ruppiner Muesli is suitable for leisure & sport horses of different usage directions. To regulate the temperament, we deliberately refrain from using oats. This can be added in individual quantities. Instead, we rely on hydrothermally digested cereal components such as maize and barley flakes. By processing the components, the surface area of the components is increased and thus the digestibility is improved. In addition, the ingredients are preserved and the horse is encouraged to chew. In this way, the energy can be released in the best possible way. Ruppiner Müsli is versatile and offers an optimal basis for leisure horses, but also for show jumping, dressage and western horses.
