RUPPNER STRUKTUR VITAL

Structure-rich muesli for balanced horse feeding

Ruppiner Struktur Vital is an oat-free structured feed with maize flakes, which, with a low starch-sugar content, is optimally suited for the balanced feeding of horses that perform light to medium work. Oats have been deliberately omitted from this product in order to counteract an increase in temperament. Hydrothermally broken down cereal components provide the necessary energy and promote digestion. The coarse structure of apple pomace and alfalfa stimulates chewing activity and ensures longer eating times. In addition, apple pomace is rich in crude fibre, low in protein and a low-sugar energy supplier. The high raw fibre content promotes an intact digestion. The delicious smell and high palatability stimulate saliva formation and optimally buffer the stomach acid. This prevents irritation of the stomach lining. Ruppiner Struktur Vital can be supplemented with oats to increase energy.

Feeding recommendation:

- Light to medium work: in addition to roughage 150 - 600 g per 100 kg body weight

The feeding recommendation refers to a roughage intake (hay) of 1.5 kg per 100 kg body weight and day.

Composition: Apple pomace, tr.; alfalfa meal; maize flakes; linseed extraction meal; alfalfa hay, dedusted; maize poppy, pressurised hydrothermally digested; locust bean fruit; carrot flakes; sunflower extraction meal; crude vegetable glycerine; calcium carbonate; soya oil; rapeseed oil; sodium chloride; isomaltulose; monocalcium phosphate; magnesium oxide

Analytical ingredients and contents: Crude protein: 10.75%, crude fat: 4.5%, crude fibre: 18.0%, crude ash: 8.0%, calcium: 1.3%, phosphorus: 0.45%, sodium: 0.35%, magnesium: 0.2%

Additives (per kg): Vitamin A: 20,000 I.E., Vitamin D3: 2,000 I.E., Vitamin E: 275 mg, Biotin: 1,256 mcg, Copper: 26 mg, Zinc: 135 mg, Selenium: 0.6 mg, Manganese: 62 mg, Iron: 161 mg, Iodine: 0.78 mg, Cobalt: 0.1 mg

Packing: 20 kg bag
